What's inside

It's time for your annual flu shot. Our flu shot location finder makes it easier to find where to get one. Learn more on Page 3.

Medicaid renewal

Take action

What you need to do to renew your Medicaid benefits

Medicaid members need to renew their coverage each year. Your state will tell you when to renew. They may call it recertification or redetermination.

Make sure the state can reach you when it is time to renew. Give them your current address, email and phone number. You must reply when they contact you. If you don't, you could lose your health plan.

We're here to help. Learn more at uhc.com/staycovered.

Breast cancer screening

Be your best self

Take time to get a mammogram

For women, it's important to get a mammogram when your health care provider says you should. A mammogram is an X-ray of the breasts that can help find breast issues. It may help find breast cancer early, when it is easier to treat.

Taking care of your health is important. It is not selfish. Plus, being healthy helps you take care of your family.

Getting a mammogram can save your life. It is a covered benefit for women based on your age and risk factors. That means you can get one at little or no cost to you.

Take care. Talk to your health care provider about if you should get a mammogram. To learn more about your mammogram benefits, call Member Services toll-free at the phone number on Page 4.

Get moving

Visit rallyhealth.com/onepass-2022 to learn more about the fitness benefits available through your health plan.

Everyday life

3 ways to exercise

Exercise is an important part of a healthy lifestyle. It reduces your risk of getting diseases like diabetes, obesity and heart disease. Exercise also helps you feel better mentally. It can make you less stressed, sad and tired.

Fitting exercise into a busy day can be hard — especially when you have work, school and family time. Here are 3 ideas to help you be more active:

- 1. Your daily activity counts as exercise.** Walking to work or at work is a great way to get exercise. The fresh air is good for your mind, too.
- 2. Take a break from work and move when you can.** Stretch or walk around for a few minutes each hour.
- 3. Hit the gym for a quick workout.** One Pass is a gym and online fitness membership offered to members ages 18 and older for no extra cost. You can get access to a network of gyms and fitness locations. There are also live, online fitness classes and on-demand workouts.

Before you begin any exercise program, talk to your provider.

Online resources to understand your health conditions

People who have been diagnosed with a disease often have questions. You may wonder:

- What is this disease?
- What are the treatments?
- How does this condition affect my overall health?
- What might happen if I don't make lifestyle changes?

We have a disease management program to help you learn more and better manage your health. Visit myuhc.com/communityplan/healthwellness to learn about:

- Asthma
- Attention deficit hyperactivity disorder (ADHD)
- Coronary artery disease (CAD)
- Chronic obstructive pulmonary disease (COPD)
- Depression
- Diabetes
- Heart failure
- Hepatitis C
- Hypertension
- Obesity
- Sickle cell

Flu shot

Fight the flu

It's time for your annual shot

It is important to get a flu shot every year. It is recommended for everyone 6 months and older. Here are 3 reasons why:

1. It protects you from getting sick with the flu.
2. If you do get the flu, it will help make the symptoms less severe.
3. It also protects your family from getting the flu. When everyone gets the flu shot, it makes it harder for the flu to spread.

Get your flu shot today. There is no cost to you to get a flu shot. We have an online tool that makes it easier to schedule one. Visit myuhc.com/findflushot.
